

```
class Animal
{
    public void walk()
    {
        System.out.println("I am Walking");
    }
}
class bird extends Animal
{
    public void fly()
    {
        System.out.println("I am flying");
    }
}
class singingbirds extends bird
{
    public void sing()
    {
        System.out.println("I am singing");
    }
}

public class Inheritance {

    public static void main(String[] args) {
        singingbirds s=new singingbirds();
        s.walk();
        s.fly();
        s.sing();

    }

}
```

## Output

```
I am Walking
I am flying
I am singing
```
